

7<sup>th</sup> March 2018

Dear Parents,

As part of our commitment to support children with their developing literacy skills we have signed them up to Literacy Planet [www.literacyplanet.com](http://www.literacyplanet.com). Literacy Planet supports the National Curriculum and the comprehensive development of key literacy skills. It is suitable for children of all abilities, and includes more than 15,000 exercises including - phonics, reading, comprehension, spelling, writing, grammar and punctuation.

Your child now has a school subscription to this fun and engaging online resource. They will have a personal avatar and profile and can earn points, redeemable credits and rewards for participation. All children can participate in multi-player games with their classmates in a safe and closed environment, as well as earn points on a global leaders board.

Children can access their Literacy Planet account on any internet connected computer or tablet device. We will be using Literacy Planet in school, as well as setting some tasks for their homework.

Yours faithfully

Mrs Henning
